

Policy Provisions Regarding Use of CHS Field for Baseball Games in 2023

1. Games must start on time as scheduled. No exceptions. Infield practice and the review of ground rules should take place prior to the scheduled starting time and should not be reasons for a late start. If infield practice delays on-time starts, infield practice privileges may be denied for future games. In the interest of equality and to preserve field conditions, a team's infield practice is limited to ten (10) minutes or less.
2. No cleats will be worn during warm-ups or infield practice. If warming up down the foul line, players must stay at least 15 feet away from the foul line.
3. During infield practice all infielders, catchers, pitchers, and coaches must stay on skinned areas.
4. There will be no PFP's or any equivalent warm ups taken on the infield.
5. The grounds crew will be given five (5) minutes after infield practices to remove all field protection.
6. In the event of a forfeit, due to lack of players by one or both teams, the field may not be used for any type of scrimmage or "pick-up" game.
7. Grounds crew will be given thirty (30) minutes between games to repair mound, plate, and infield skin, and water if needed.
8. Teams will make their own arrangements for retrieving foul balls.
9. No running on track between innings by players on the bench.
10. Concessions are operated by Professional Sports Catering/Levy Restaurants, the exclusive concessionaire of the St. Paul Saints Baseball Club and CHS Field.
11. Use of field lighting is included in this agreement at no cost to the participating teams. Use of lights will be determined by the umpires and a representative of the Ballpark's management. (Field lights are very expensive, and costs are usually billed to a contracted tenant at the rate of \$1 per minute.) In the event of lightning or the threat of lightning, field lights cannot be used.
12. The locker rooms will not be available. Restrooms are always available on the main concourse of the Ballpark.
13. Only one bullpen will be available for use by all teams.
14. Teams may have access to the Ballpark one (1) hour prior to game time. Coaches and managers must assume full responsibility for the conduct of players during the Legion program's use of the Ballpark.
15. No Gatorade or water cooler dumping on field.
16. No sunflower seeds allowed in any areas. A cleaning charge will be assessed if this policy is not upheld by participating teams.
17. The decision to cancel a game due to weather or unplayable field condition will be the responsibility of the Head Grounds Keeper or his representative. The decision to cancel due to weather or unplayable field conditions during a game will be the umpires' responsibility, hopefully with input from the Head Grounds Keeper or his representative.
18. In all correspondences, please refer to the venue as CHS Field. No other name or reference to the ballpark should be used at any time.
